

DELIVERING BLOCKCHAIN TECHNOLOGY TO THE REAL WORLD

Phore Blockchain

Phore is an ambitious blockchain platform and ecosystem based on a Proof of Stake (PoS) network with fast transaction speeds that can be either private or transparent. Rewards are given to network participations through a system of Masternodes and Staking to ensure decentralization helping secure the network. An entire ecosystem of software capabilities and decentralized applications (dApps), unlike most Blockchain projects, has launched or are currently in development.

What Makes Phore Different

- No Initial Coin Offering (ICO)
- No Premine of Any Coins
- Completely Self-Funded and Sustainable
- Has Real World Use Case with the Phore Marketplace
- Upcoming Point of Sale (POS) Retail Integration through UniFox Partnership
- First and Only PoS network with Masternodes to implement SegWit
- Flexibility with Private or Transparent Transactions
- Offers B2B Services for organizations interested in implementing blockchain technology
- Launching Decentralized Crowdfunding into the Phore Marketplace
- Launching Smart Contract Capability in Late 2018
- Incorporated in Gibraltar in early 2018

Mission

To establish, strengthen and grow, free to low cost, sustainable, decentralized commerce on a global scale.

Media Contact: Jennifer Berg, jenniferb@phore.io

Specifications

- No ICO, No Premine
- Proof of Stake (PoSv3) / Quark
- Masternode Community Governance
- Staking
- SegWit Integrated
- Private or Transparent Transactions
- Multisignature Transactions Supported
- Privacy Technology: Custom Zerocoin (zPHR)
- Tor Enabled
- IPV6 Support

Coin Specs

Algorithm:	Quark
Block Time:	60 Seconds
Difficulty Retargeting:	Every Block
Max Coin Supply (PoS Phase):	Infinite

Proof of Stake Rewards Breakdown

Block Height	Reward	Masternodes	Stakers
<= 755,600	7.7 PHR	4.2 PHR	2.79 PHR
755,601 – 1,043,999	5 PHR	2.7 PHR	1.8 PHR
1,044,000 – 1,562,398	4 PHR	2.16 PHR	1.44 PHR
> 1,562,399	3 PHR	1.62 PHR	1.08 PHR

Key 2018 Development Milestones

- Decentralized Marketplace: (*Open Beta release*) Download: <https://phore.io/marketplace/>
- SegWit Integration: (*Complete*): FIRST pure PoS coin with Masternodes to integrate SegWit.
- Atomic Swaps: Q3 2018
- Decentralized Crowdfunding: Q3 2018
- Programmable Smart Contracts: Q4 2018
